

## **Mercia Tang Soo Do**

### **Club Constitution**

The Art of Tang Soo Do places great emphasis on the Dojang code which aims to improve the character of its students through the development of respect, sincerity, effort, etiquette and self control through Karate training. Mercia Tang Soo Do uses this code of behaviour so that technical skill, physical fitness and good behaviour become synonymous with martial arts.

Character improvement is developed through the practices that are involved within its structured classes and has an important effect on the practitioners general well being both behaviourally and physically.

All MTSD members have a duty to behave in ways that maintain and enhance the reputation of their Dojang and the MTSD, instructors have a particular responsibility as they greatly influence the behaviour of their students.

Instructors must ensure that the following code of behaviour is explained and adhered to by all students in their charge.
